

MITEY HANDY MIXER MD95

THE RIGHT TOOLS

SMALL BUT STURDY

Dynamic

EXPERIENCE IN THE SERVING OF PROFESSIONAL

FOR YOUR SMALL PREPARATIONS IN RESTAURANTS • CANTEENS • MULTIPLES

PERFORMANCE :

- **Small** but **Sturdy** and compact, this machine is suitable for small applications.
- Its power is comparable to our other appliances, and like them, this one is able to reduce vegetables, soups and do some fish soups.

MAINTENANCE AND HYGIENE :

- The stainless steel shaft and the stainless steel bell can be washed in clear water in just a few seconds. It's not necessary to dismantle anything.
- No lubrication or special maintenance is required.
- Its wall bracket allows you to stow it quickly and requires minimum space.

RELIABILITY :

- The **DYNAMIC MD95 MIXER** is made for professional kitchens. It is sturdy and powerful and it's one piece construction allows you intensive use for many years. Thanks to its 7" / 18 cm tube, immersion and splash are avoided.

VARIOUS USES :

- Emulsify some sauces.
- It can crush and mix (in small quantities) the best cream-soup, bread soup, spinach, salads, chopped cabbage, pancake batter, etc...
- **FOR NURSERIES:** puréed vegetables (which are finely reduced) uncooked puréed carrots, gruels, fruits, creams...
- It also can be a great use for some industries, laboratories and perfumeries.

IMPORTANT NOTICE :

- To have the best results, hold the appliance in a diagonal position without putting the bell on the bottom, as shown on the sketch below.

By following this advice, the risk of motor immersion will be avoided. **The life of your product depends on this.**

CHARACTERISTICS:

- Motor 120 Volts
(220 Volts on request)
