 Refg: R22      FOB: LIC, NY

## Industry Leading Features

- ✓ **Visual Merchandiser** - The large clear bowls merchandise and sells the Granita product.
- ✓ **Patented Magnetic Drive System** - The auger motor turns magnetically eliminating the need of front or rear seals. The Granita product is encapsulated inside the bowls and can not leak into the motors. This system lowers maintenance costs and decreases auger motor burnout.
- ✓ **Magnetic Drive Slippage System** - Eliminates damage to auger motor if product freeze up occurs.
- ✓ **Auto Fill Ready For Liquid Bag-In-The-Box Apparatus** - Never run out of product again!!! The Liquid Auto Fill option automatically refills product as soon as it falls below the preset level.
- ✓ **Level Control System** - A sensor system, in the Auto Fill dispensers, senses when the Granita product is too low and automatically refills it to the appropriate level. Additionally, when the bag-in-the-box product is finished, a low pitched alarm will sound and light illuminates, alerting the operator that the product needs to be replaced.

# Available in Black Too!

Dispense Frozen  
Cappuccino,  
Fruit Slush,  
Smoothies and much  
more!

## Industry Leading Features (cont)

- ✓ **24 Hour Programmable Defrost Timer** - Simply set the timer to defrost any product, keeping it chilled at approximately 40 degrees, and automatically turning back to the frozen mode at any specified time. This feature decreases down time and maximizes sales. Also this eliminates product freezing and high maintenance cost.
- ✓ **Freezing Chamber** - FrigoGranita's dual surface freezing chamber freezes product quickly and efficiently.
- ✓ **Beautiful Lit Graphics** - Helps merchandise the Granita product resulting in additional sales. The easily removable lid is reversible for behind the counter selling.

## Multiple Uses

- ✓ **Adjustable Slush Mode** - Allows you to set the slush consistency of the Granita drink.
- ✓ **Cool Beverage Mode** - In addition to selling Granita products, this mode gives you the capability, at the push of a button, to sell refreshing cold beverages as well. Perfect for selling Fruit Punch, Iced Cappuccino, Lemonade and more. Thermostatically adjustable for proper temperature.

## Preventative Maintenance

- ✓ **Filter Indicator Light** - When lit, means that the condenser filter needs to be cleaned. This eliminates a service call and keeps the dispenser in top condition.
- ✓ **Washable Condenser Filter** - Easily located through the side panels of the dispenser.

# Powder Auto Fill Systems

If your in the market to sell an endless supply of product and cash in on the Granita Craze with little time and effort, than YOU need a Powder Auto Fill System from Cecilware.

The Auto Fill System gradually refills the product, keeping it frozen and the bowls full - all the time!  
*Eliminates down time too!*

All systems come equipped with Smart Sense, a radar system that alerts you when product hoppers are empty and need to be refilled.

Not only will the dispenser save you time and money, but also increase your productivity on a daily basis.
