# **Underbar Refrigeration:**

Solid Slide Lid Stainless Steel Glass and Plate Chiller/Froster with Hydrocarbon Refrigerant

# T-36-GC-S-HC

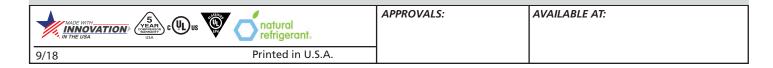

- True's glass and plate chiller/ frosters are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service.
- Factory engineered, selfcontained, capillary tube system using environmentally friendly R290 hydro carbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- Large storage capacity to meet the supply and demand requirements during peak hours.
- ▶ High capacity, factory balanced refrigeration system that maintains cabinet of 0°F (-17.7°C) and below.
- Forced-air cooling, positively guided airflow provide efficient balanced temperatures throughout the cabinet. This unique design ensures fast frosting of dry glasses and plates.
- Exterior stainless steel countertop, lids, cabinet front and sides, and back.
- Interior long lasting, heavy duty galvanized steel.

# STANDARD FEATURES

### **DESIGN**

 True's glass and plate chiller/frosters are designed with enduring quality and value. Our commitment to using the highest quality materials and oversized refrigeration assures colder product temperatures and years of trouble free service.

### **REFRIGERATION SYSTEM**

- Factory engineered, self-contained, capillary tube system using environmentally friendly R290 hydrocarbon refrigerant that has zero (0) ozone depletion potential (ODP), & three (3) global warming potential (GWP).
- High capacity, factory balanced refrigeration system that maintains cabinet of 0°F (-17.7°C) and below.
- State of the art, electronically commutated evaporator and condenser fan motors. ECM motors operate at higher peak efficiencies and move a more consistent volume of air which produces less heat, reduces energy consumption and provides greater motor reliability.
- Automatic defrost system timeinitiated, time-terminated.

- Condensing unit accessed from behind front grill, slides out for easy maintenance.
- Forced-air cooling, positively guided airflow provide efficient balanced temperatures throughout the cabinet.

# **CABINET CONSTRUCTION**

- Exterior Stainless steel countertop, lids, cabinet front and sides, and back.
- Interior long lasting, heavy duty galvanized steel.
- Insulation entire cabinet structure is foamed-in-place using a high density, polyurethane insulation that has zero ozone depletion potential (ODP) and zero global warming potential (GWP).
- Welded, heavy duty steel frame rail, black powder coated for corrosion protection.

### **SHELVING**

• Three (3) adjustable, heavy duty PVC coated wire shelves. One (1) bottom shelf 18½"L x 19 16 "D (470 mm x 491 mm) and two (2) top shelves 16½"L x 19 18 "D (413 mm x 493 mm). Split shelf design allows for effective rotation of chilled smallware, working with already chilled plates and glasses on one side while chilling dry product on the other side.

### **MODEL FEATURES**

- Evaporator is epoxy coated to eliminate the potential of corrosion.
- Listed under NSF/ANSI Standard 7 for the storage and/or display of packaged or bottled product.

#### **ELECTRICAL**

 Unit completely pre-wired at factory and ready for final connection to a 115/60/1 phase, 15 amp dedicated outlet. Cord and plug set included.

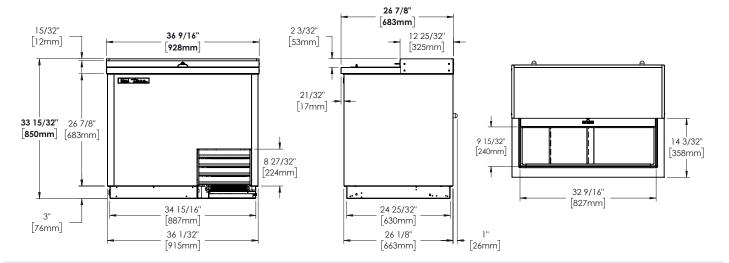

## **OPTIONAL FEATURES/ACCESSORIES**

Upcharge and lead times may apply. □ 6" (153 mm) standard legs.

- ☐ 6" (153 mm) seismic/flanged legs.
- $\square 2\frac{1}{2}$ " (64 mm) diameter castors.
- □ 3" (77 mm) diameter castors.
- ☐ Ratchet lock and handle.
- ☐ Floor racks.
